If you purchased a Beko condenser dryer between May and October of this year, please keep reading to see if you have one of the affected models. Beko said it is aware of several incidents in which electrical components failed and overheated in some of the condenser tumble dryers. Beko is currently umblying ants who have purchased Beko condenser tumble dryers since May 2012 to see if the dryer is affected. Having a dryer affected by the breakdown has the right to repair it for free. Which. Tested three tumble dryers affected by the safety notice: DCU7230W, DCU7230S and DCU7230B. Reviews have been updated to include Beko's safety notice - you can find out more about these machines by reading our. How to find out if your Beko Tumble Dryer is affected Beko said the fault exists only in condenser tumble dryers produced between May and October 2012. To determine if it is affected, you need to check the serial number. To find the serial number, open the main door and look for the silver evaluation plate. It should be placed just below the main opening, as shown in the photo. The number of the plate following S/N is the serial number. The first two digits indicate the year in which it was made, and the last two digits indicate the month. If the first two digits are 12 and the last two digits are one of the following, you must contact Beko: 05, 06, 07, 08, 09, 10. Here is an example of a serial number from a machine that may be faulty: if you have a serial number that conforms to the above criteria, the next step is to access beko's dryer safety website with more information and a link to see if the dryer is one of the affected ones. Alternatively, you can call Beko at 0800 917 2018 or 1800 25 29 25 in Ireland between 8 a.m. to 8 p.m. Monday to Friday and 10 a.m. and 4 p.m. on Saturdays and Sundays. If the dryer is one of the affected ones, remove it immediately as a precaution and do not use it. For those dryers that have defective components what to do if the model DCU7230S and DCU7230B potentially have faulty models your dryer is at risk of fire, Beko will arrange to repair your dryer for free. Which. Laundry expert Adrian Porter said: As tumble dryer sales rise as temperatures fall and frost falls across the UK, many people will rely on tumble dryers as part of their laundry routines. If you purchased a Beko 6kg or 7kg condenser tumble dryer from May this year, you should follow the instructions above as soon as possible to ensure the safety of your appliance. We hope that Beko will fix all affected dryers quickly. This is not the first time Beko has issued such a safety warning. The number of refrigerator freezers manufactured between January 2000 and October 2006 is also a potential fire hazard. For more information on at-risk refrigerator freezers, see Q&A on Beko Refrigerator Freezer Safety. The incident occurs just two months after Beko launched the Become a Hero campaign as part of Electric Fire Safety Week. More on this.our price is lower than the manufacturer's lowest ad price.
